COLLECTIONS

1. To create a collection.
Smithsonian lab

1. First do a search using
2. Locate a picture that you would like to add to your collection. Your picture will have a vertical bar on the left hand side.
   i. Artifact information: this will give you more information on the item.
   ii. Add to collection: this will add that picture to your collection. This will give you the option to create and name a new collection.
   iii. Favorite
   iv. Share
   v. Download
   vi. Flag

VIEWING AND EDITING COLLECTION

1. Once you have added the pictures to your collection click on and open collections.
2. Click on, and open the collection that you want.
3. Once opened you will see this button in the top right corner. Press this button to view and edit your pictures. When you move your cursor over the pictures you will see these icons (edit and delete).
4. Click on the green edit pin to open it full screen.
5. In this mode you will see a paperclip icon on the upper left of the picture. Click on this to start adding notes to your picture.

NOTE TAKING

1. After clicking the paperclip you will see a new menu appear on the left with a button that says add.
2. Clicking on add will show a drop down menu.
   a. Info / text will allow you to write notes on the side of your collection.
   b. Quiz Questions will allow you to create a quiz and answers relevant to your picture.
   c. Image Hotspot will allow you to make a notation directly on the image. After clicking the Image Hotspot icon click anywhere on the image that you would like to add a notation.
