Industrial Revolution Project Description & Checklist

Task: Research your assigned industry and business to answer the Essential Questions below. You will work as an investigative team to uncover the problems with your industry.

Industrial Revolution Project Checklist

Initial Research

☐ Essential Questions Answered

What were the consequences of the rise of industry in the United States? Why are they significant?

Guided questions: What was the industry like? Why was the industry important? What was happening as the business grew? Who were the laborers? Etc. (These guided questions are a way to begin research, NOT the only facts to learn.) Compare your findings with your team. Reflect and analyze research.

☐ Team Notes (Google Docs)

Deadline: Monday, March 6th

Inquiry & Discovery

Use what you learn to dig deeper. With your team, ask your own questions based on what you learn from the beginning. Continue research based on your questions and the direction you would like Uncover possible consequences of industry, possible problems, possible impact.

☐ Updated Team Notes (Google Docs)

Deadline: Tuesday, March 7th

Production

Inform the public: Create a method to inform the public of the controversy in your industry. (Suggestions may be: Video documentary, radio story/podcast, multi-author blog, another method you want to use with teacher approval.)
