Task:
Your group will create a destination promo video that advertises a specific destination’s characteristics, focused on the animals, plants, and climate of its particular biome. You may choose any destination in your assigned biome, but it must be a destination for eco-tourism, not a city or something similar.

Examples: Grand Canyon, Niagara Falls, Amazon Rainforest, Mount Everest, Great Barrier Reef (NOT: Paris, Venice, Los Angeles)

Required Elements:
- 1+ tourist attractions which is part of the natural environment, for example, a specific waterfall, river rafting tour, rainforest canopy zip-lining, a hiking trail, a mountain, a beach.
- Clothing recommendations appropriate based on the climate and the activities travelers will likely participate in.
- Dominant flora (plants) and fauna (animals) of the land.
- Describe any threats to the environment in the area. EXAMPLE: Logging and commercial farming in the Amazon Rainforest or the melting of the glaciers in northern Alaska destroying Polar Bears’ homes.
- Food web that represents the biome (must have at least 10 organisms).
- 3+ pictures of the biome.
- A map showing the location of your destination and its biome.
- 3+ reference with the names & URLs (addresses) of the sites you used.

Reminder:
DO NOT copy or directly paraphrase any phrase, sentence, or other text word for word. Instead, read what the site has to say, take some notes, and compose the text for each poster section yourself. DO NOT rely on only 1 or 2 sites.

Ecotourism Promotional Video

Due Friday, May 17th! (End of Hour)
